### Sauna Master - Who is he? And why do we love him?

Do you like sauna? If so, you may have been on a program run by a sauna master.

In such a program, the main task of the sanua master is to sprinkle water and various essential oils on the hot stones and direct the resulting steam to the guests with spectacular towel movements. If he works skillfully, guests will experience a pleasant chill-shiver under the influence of warm air. This feeling of shivering produces beta endorphins in the brain, which triggers a feeling of happiness. This is mainly why we love good sauna masters.

In addition, sanua masters have different strengths, which may make him a favorite master we follow wherever he runs his sauna program. This app helps us to follow our favorite master.
